

## **Policy Statement: Social Responsibility**

### **Healthcare**

IM Power, PLC seeks to contribute to the well being of the communities where we operate. We seek to be a good neighbour to the people who reside next to our plants.

To give this a practical form, we will be willing to contribute facilities to enhance the quality of life of both our employees and their families. This will include:

Healthcare.

The company will provide and staff primary health care clinics for employees who may suffer industrial injuries and also primary health care for dependent families including care for babies and children. We will provide transport to secondary treatment centres for more serious cases that cannot be treated at the primary level.
